Description

The National is Rome's new kill-it-all design powered by our modern take on positive camber. The new generation of full-mountain exploration vehicles, it's designed for riders like Bjorn who want the power, the response, and the flexibility to charge the whole mountain. From chutes and corduroy, to big drops and a few park laps, the National is dialed or a full day at Snowbird, Jackson, Stowe or St. Anton. The Fusion Camber is an evolution of the timeless power of camber, combined with targeted areas of rocker to help lay ruts effortlessly.

Rome National Features:

- All-Mountain Freestyle
- Fusion Camber: Positive camber through most of the running length, with rocker starting just before the contact points
- Flex: 7
- Tech:
 - SuperPop Core Matrix
 - StraightTriax45 Laminate
 - TurboRods – Carbon Single Barrel
 - SinterStrong Sidewalls
 - SinterSpeed Base
- Shape: Directional Twin
- Designed in USA, Made in Canada
